

Buddhists and Schools: a day conference

for Buddhists who work with schools or wish to

Saturday, 26th March 2011, 10am-4pm

Birmingham Buddhist Centre, Moseley

What does Religious Education ask of us as Buddhists?

What do we want to communicate as Buddhists?

Are they the same? And how do we do it, anyway?

British Buddhists of many traditions contribute a great deal to pupils' understanding of Buddhism as part of Religious Education in schools.

This day is for and about Buddhists who work with schools, independently or on behalf of Buddhist charities or places of worship.

Whether you are experienced or a newcomer to school work, you will be very welcome.

This is a Buddhist community event: Buddhist speakers from a range of traditions will volunteer talks and workshops sharing their experience for the benefit of all.

A great opportunity for training, networking and sharing skills and experience.
